## Onboard

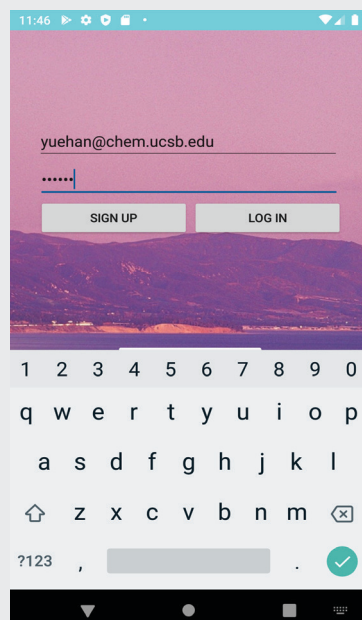

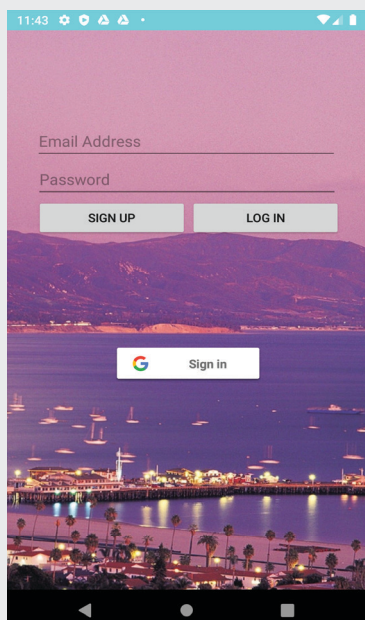

After you open the app on your Android system based phone, Click “START” to continue.

## Sign Up/Log In

If user doesn't have an account of our app, please click “SIGN UP” after filling in your “Email Address” and “Password”. Then it would automatically redirect you into the complete profile page.

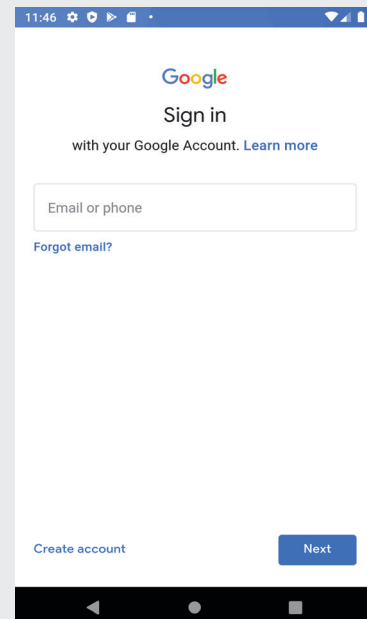

If you has an account for our app, then click “Log In” after filling the correct “Email Address” and “Password”, otherwise failed to login.

## Google Sign in

---

You can also click the Google Sign In button as an alternative way to sign up and log in. It will redirect you to Google's Sign In page, follow the instruction to log in our app.

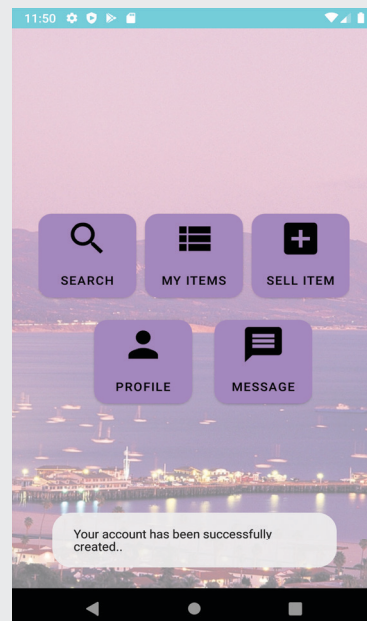

## Home Page

---

This is our Home Page. There are five main section in our app:

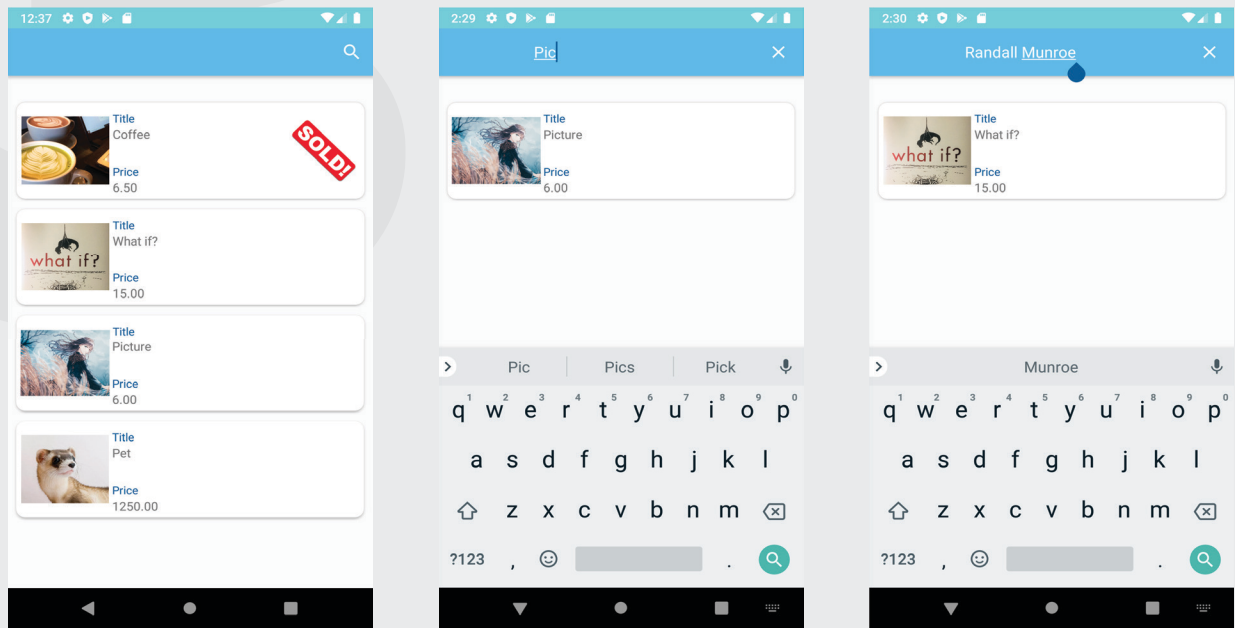

1. Search
2. My Items
3. Sell Item
4. Profile
5. Message

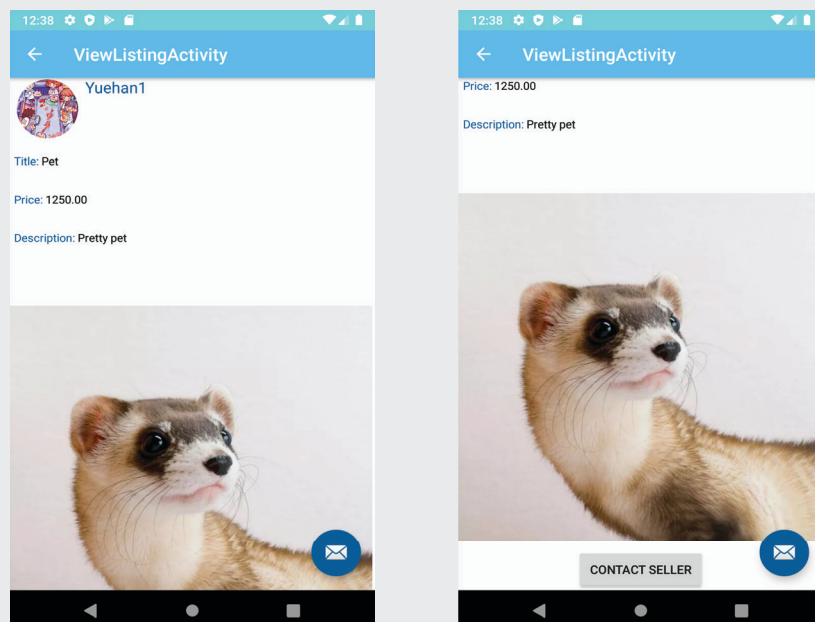

HOME PAGE

## Search Page

If the users are looking for specific product to buy, they can tap on the “SEARCH” button. Here you can see the list of all products. You can also click the Magnifying glass icon on the top to search products with keywords (including words shown in name, description, and category). Listing will be updated instantaneously when users continue to type into the input.

If you would like to view one product, click on it and it will redirect you to the information page of the product (The “SOLD!” products can’t be selected). In addition, you can click the “Contact Seller” button to contact with the seller.

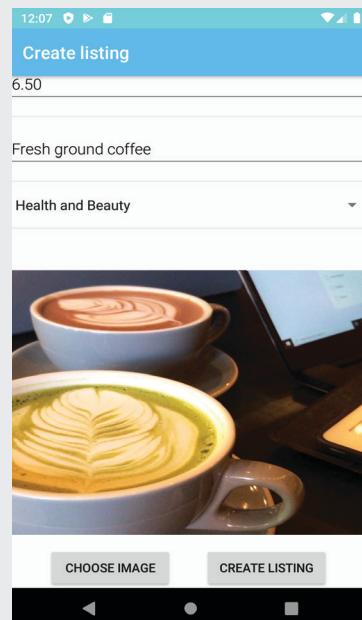

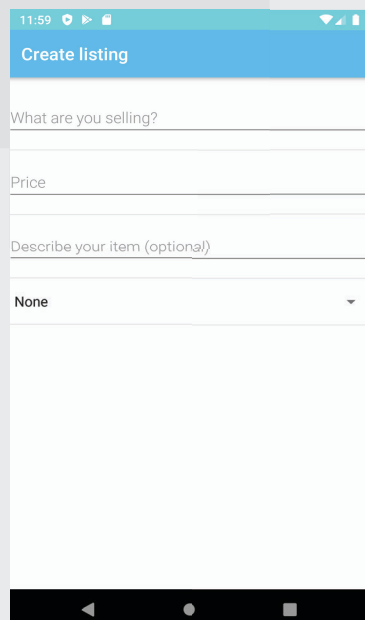

SEARCH

## SELL ITEM

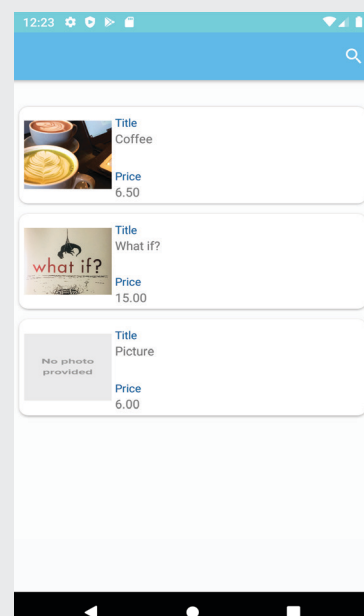

Click the “SELL ITEM” button on the home page, you will be redirected into the Create Listing page. You can put in your product’s “Name”, “Price”, “Description”, “Category”, and “Image”. You can click “CHOOSE IMAGE” to upload your product image and click “CREATE LISTING” to complete, which will redirect you to the Home Page.

Make sure you have your product’s “Name”, “Price”, and “Category” when you first create the item.

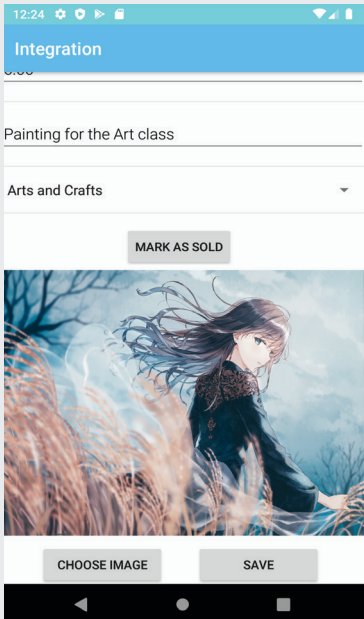

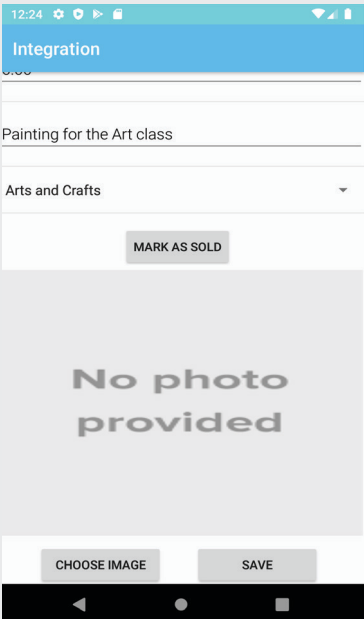

## My Items page

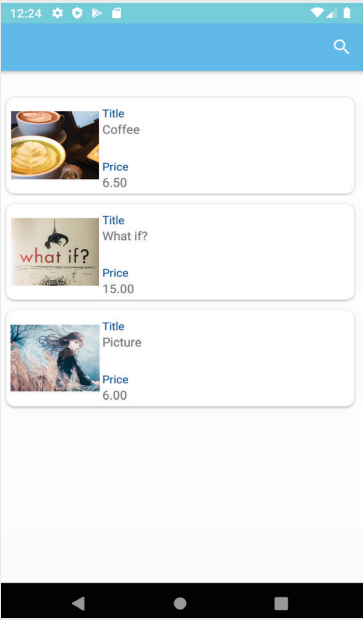

Click the “MY ITEMS” button on the home page, here you will see the list of items that you create so far.

If you want to edit unsold item, click on it, then click “EDIT LISTING” to enter the edit product page. Here I add a new image with “CHOOSE IMAGE” button.

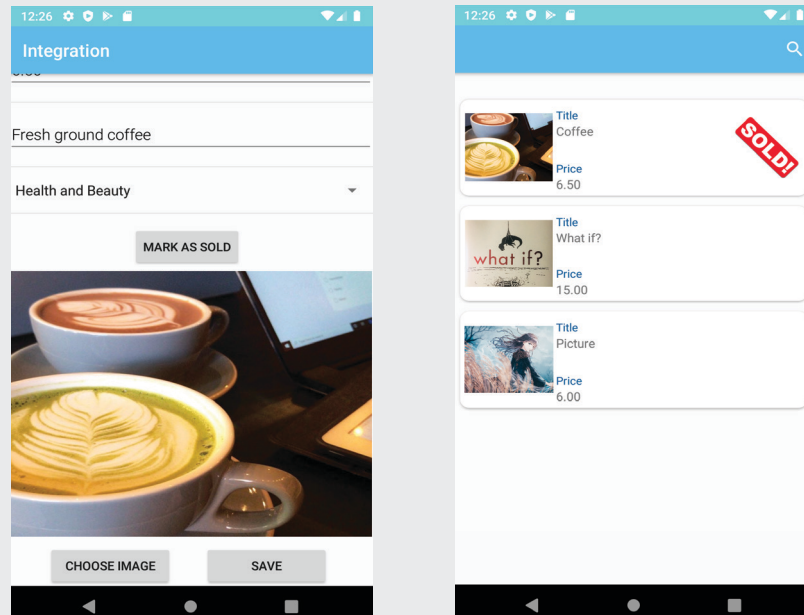

Click “Save” to finish editing the product. Re-enter your “MY ITEMS” page, you will see the updated items.

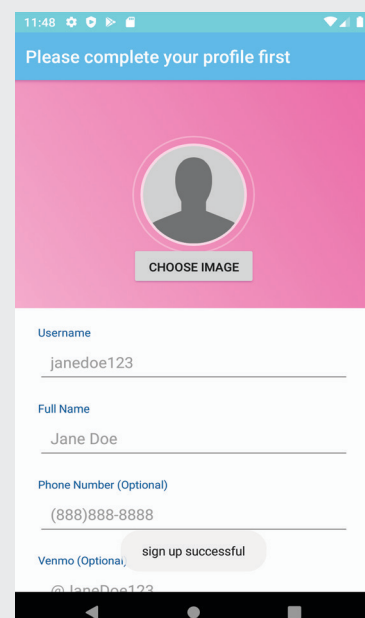

MY ITEMS

Also you can mark the item as sold with the button “MARK AS SOLD”, to make the item’s status as SOLD that both shown in “MY ITEMS” and “SEARCH” page. SOLD items are no longer clickable to other users.

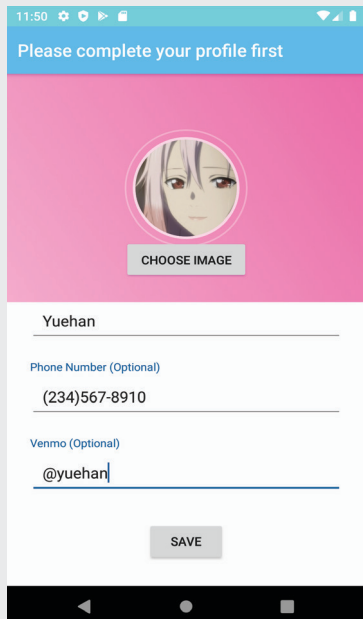

## Complete Your Profile

After you firstly sign up the account, you will be redirect into the profile page that complete your profile for the first time.

PROFILE

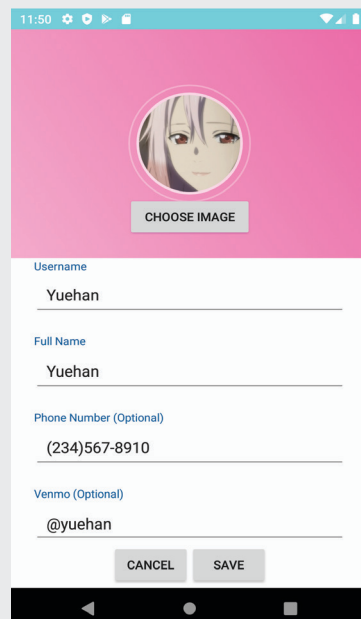

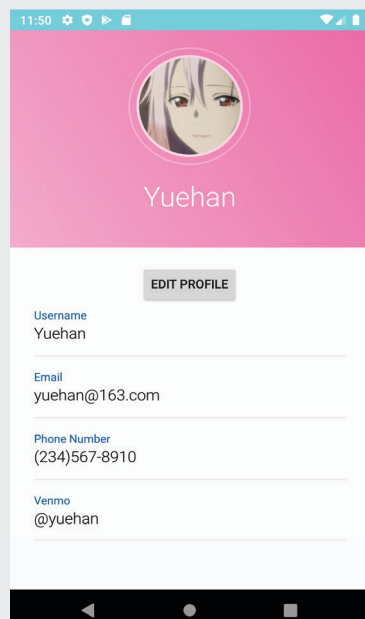

You can edit the “Username” that indicates what other users will see when they contact you; your “Full Name”, “Phone Number”, and “Venmo”. You can also “CHOOSE IMAGE” to upload your account image. It will redirect you into Google drive where you can select your image.

Click “Save” after you finished your profile. Please make sure you filled in “Username” and “Full Name” section. After finished your profile, you will be redirect into the Home Page.

## Profile Page

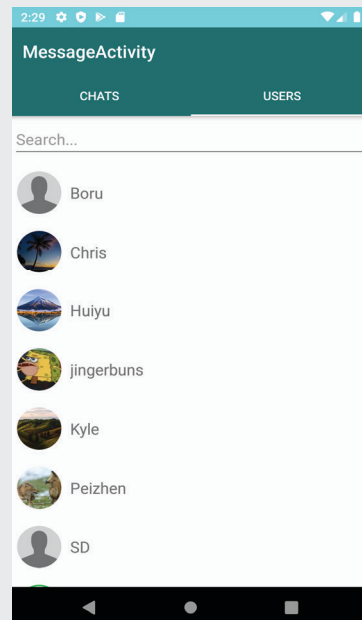

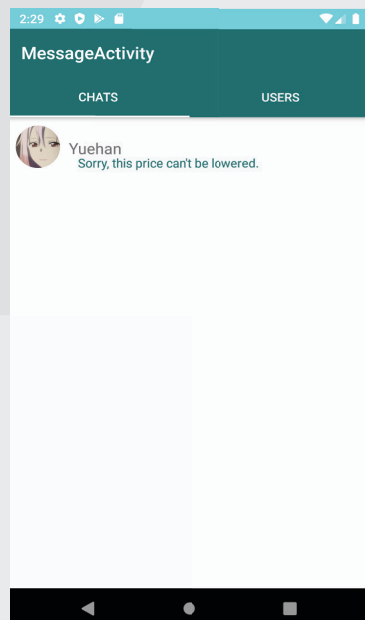

Click the “PROFILE” button on the home page, here is your profile page. You can click “EDIT PROFILE” to edit your profile. Click “CANCEL” will discard any changes the user has made, click “SAVE” will update the profile.

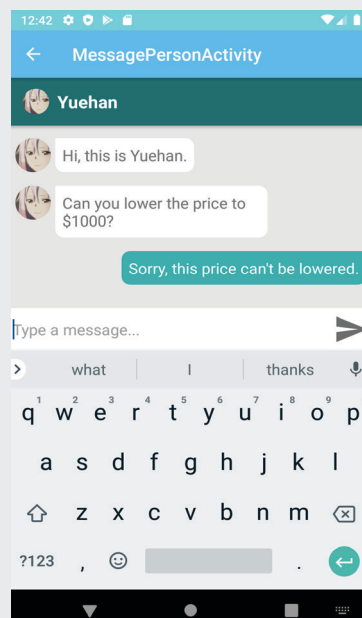

PROFILE

## Message

Click the “MESSAGE” button on the home page, here the “CHATS” fragment displays a list of all the previous chats the have occurred. The “USERS” fragment displays a list of the users of the app. There is search bar in this section, so current user can search for other users he/she wishes to message.

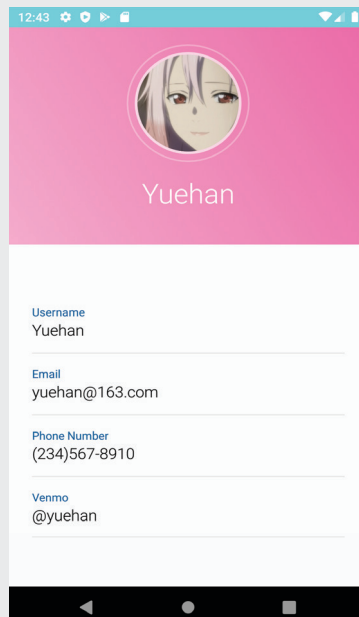

When one of the users is tapped, it transitions to another screen that contains the previous messages between the users.

MESSAGE

If you want to see the other user's information, you can tap on the toolbar to take you to their profile.

MESSAGE
